

CITY OF LeROY

ILLINOIS

ORDINANCE NO. 238

AN ORDINANCE AMENDING CHAPTER 6, WATER SERVICE, MUNICIPAL CODE OF LEROY,
ILLINOIS 1975 (AS AMENDED), BY ADDITION OF NEW SECTION 6.30.

ADOPTED BY THE

CITY COUNCIL

OF THE

CITY OF LeROY

THIS 4th DAY OF March, 1985.

Published in pamphlet form by authority of the
City Council of the City of LeRoy, McLean County,
Illinois, this 5th day of March,

1985.

AN ORDINANCE AMENDING CHAPTER 6, WATER SERVICE, MUNICIPAL CODE OF LEROY, ILLINOIS 1975 (AS AMENDED), BY ADDITION OF NEW SECTION 6.30.

WHEREAS, the Mayor and City Council of the City of LeRoy, McLean County, Illinois, an Illinois municipal corporation, have determined that it is in the best interests of the residents of said City that laws be adopted providing for the further protection of the public water supply and of the public health, and

WHEREAS, the Mayor and City Council have determined that there exists within the City certain connections to the public water supply which have a potential for causing harm to the public safety and health, and that elimination of such connections is both desirable and necessary in order to protect the public health, safety and welfare,

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of LeRoy, Illinois, in lawful meeting assembled:

Section 1. That new Section 6.30, CROSS-CONNECTION CONTROL AND BACKFLOW PREVENTION, of Chapter 6, WATER SERVICE, Municipal Code of LeRoy, Illinois 1975 (As Amended), is hereby adopted in words and figures as follows:

"6.30. CROSS-CONNECTION CONTROL AND BACKFLOW PREVENTION.

(a). Connections to the City water supply shall not be permitted where the possibility of backflow of hazardous or objectionable fluids through cross-connection with a secondary water supply exists, or where contamination by solid, liquid or gaseous pollutants originating from a customer's premises constitute a hazard or potential hazard to the public water system. No connection shall be made between pipes carrying City water and pipes carrying water from another source such as a cistern, well, pond or creek.

(b). Private wells are considered to be secondary water supplies and shall not be connected to or have the potential for future connection to the municipal water supply. Existing secondary water supply piping where co-existing with the City water supply piping shall be clearly identified by distinguishing colors, lettering or tags, and shall be so maintained that each pipe may be traced readily in its entirety. If piping is installed such that it is impossible to trace it in its entirety, it shall be necessary to protect the City water supply at the service connection in a manner acceptable to the City.

(c). No physical connection shall be permitted between the piping of the City water supply system, either within or outside any building or structure or upon public or private property, wherein any water derived from any source other than said City water supply or any water derived from said City water supply and theretofore used or stored, may be forced, drawn, siphoned or otherwise taken into said City water supply system, either directly or indirectly, or through the manipulation of valves, stops, pipes or fixtures, or because of ineffective check or back pressure valves, or in any other manner whatsoever. This sub-section shall not be construed to apply to the discharge of water derived from the City water supply system into an elevated tank, cistern or suction well at an elevation above the high water line of any such elevated tank, cistern or suction well.

(d). The City water department is hereby authorized and directed to discontinue water service after reasonable notice to any property wherein any connection in violation of this ordinance exists and to take such other precautionary

measures as may be necessary to eliminate any danger of contamination of the public water supply. Only those protective devices approved by the Foundation For Cross-Connection Control Research of the University of Southern California, or "The National Sanitation Foundation" are acceptable as a cross-connection control method when deemed necessary to protect the public water supply. Installation and costs of such devices must be borne by the customer and prior approval of such installation must be obtained from the City water superintendent.

(e). The City of LeRoy hereby adopts, by reference, the U.S. EPA Cross-Connection Control Manual, EPA-430/9-73-002, as amended from time to time, to establish rules and regulations for the purpose of defining and eliminating the existence of cross-connections to the City water supply. Further, all provisions of the Illinois State Plumbing Code 1983 (as amended) are incorporated into this ordinance and chapter, by reference.

(f). Any person, firm or corporation who shall violate any of the provisions of this Section 6.30 of Chapter 6, WATER SERVICE, Municipal Code of LeRoy, Illinois 1975 (as amended), shall, in addition to any fine or other penalty provided for under the Municipal Code of LeRoy, have the City water supply disconnected from any premises on which said violation shall occur. Each day or part of a day that this ordinance is violated shall constitute a separate offense."

Section.2. That this ordinance shall be in full force and effect after its passage, approval and publication in pamphlet form as required by law.

PASSED BY the Mayor and City Council of the City of LeRoy, Illinois, on the 4th day of March, 1985.

CERTIFICATE

I, JUANITA DAGLEY, certify that I am the duly elected and acting municipal clerk of the City of LeRoy, McLean County, Illinois.

I further certify that on March 4, 1985, the Corporate Authorities of such municipality passed and approved Ordinance No. 238, entitled:

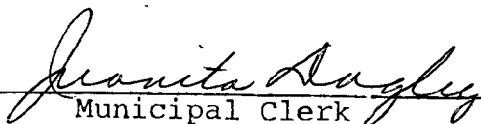

AN ORDINANCE AMENDING CHAPTER 6, WATER SERVICE, MUNICIPAL CODE OF LEROY, ILLINOIS, 1975 (AS AMENDED), BY ADDITION OF NEW SECTION 6.30,

which provided by its terms that it should be published in pamphlet form.

The pamphlet form of Ordinance No. 238, including the Ordinance and a cover sheet thereof was prepared, and a copy of such Ordinance was posted in the municipal building, commencing on March 5, 1985, and continuing for at least ten days thereafter. Copies of such Ordinance were also available for public inspection upon request in the office of the municipal clerk.

Dated at LeRoy, Illinois, this 5th day of March, 1985.
