Voting "Nay" 0

The undersigned being the duly qualified and acting City Clerk of the City of LeRoy does hereby certify that this document constitutes the publication in pamphlet form, in connection with and pursuant to Section 1-2-4 of the Illinois Municipal Code, of the above-captioned ordinance and that such ordinance was presented, passed, approved, recorded and published as above stated.

*Juanita Magley*  
City Clerk of the City of LeRoy,  
McLean County, Illinois

(SEAL)

Dated: April 4, 1988.

ORDINANCE NO. 316

AN ORDINANCE REGULATING DEVELOPMENT IN SPECIAL FLOOD HAZARD AREAS, AND BEING AN ORDINANCE AMENDING CHAPTER 21 OF THE MUNICIPAL CODE OF LEROY, ILLINOIS, 1975 (AS AMENDED), BY ADDITION OF NEW SECTION 21.08 F.

WHEREAS, the City of LeRoy, McLean County, Illinois, an Illinois municipal corporation, has determined through its Mayor and City Council that it is in the best interests of the City and of its residents to adopt regulations regarding development in special flood hazard areas,

NOW, THEREFORE, BE IT ORDAINED by the Mayor and City Council of the City of LeRoy, Illinois, in lawful meeting assembled, as follows:

Section 1. That Ordinance No. 294 adopted March 2, 1987, is hereby repealed.

Section 2. That Section 21.08F of Chapter 21 of the Municipal Code of LeRoy, 1975 (as amended), is hereby repealed.

Section 3. That new Section 21.08F of Chapter 21 of the Municipal Code of LeRoy, 1975 (as amended), is hereby adopted in words and figures as follows:

(Regulating Development of Special Flood Hazard Areas)

A. Purpose: This ordinance is enacted pursuant to the police powers granted to this City by Illinois Revised Statutes, Chapter 24, Paragraphs 1-2-1, 11-12-12, 11-30-2, 11-30-8, and 11-31-2 in order to accomplish the following purposes:

(1). To prevent unwise developments from increasing flood or drainage hazards to others;

(2). To protect new buildings and major improvements to buildings from flood damage;

(3). To protect human life and health from the hazards of flooding;

(4). To lessen the burden on the taxpayer for flood-control projects, repairs to flood-damaged public facilities and utilities, and flood rescue and relief operations;

(5). To maintain property values and a stable tax base by minimizing the potential for creating flood-blighted areas; and

(6). To make federally subsidized flood insurance available for property in the Village by fulfilling the requirements of the National Flood Insurance Program.

B. Definitions. For the purposes of this ordinance and this Section 21.08F, and all subsections thereof, the following definitions are adopted:

(1). "Flood" means: a general and temporary condition of inundation of normally dry land areas from the overflow, the unusual and rapid accumulation, or the runoff of surface waters from any source.

(2). "Base Flood" means: the flood having a one-percent probability of being equalized or exceeded in any given year. The base flood is also known as the 100-year flood. The base flood elevation at any location is as defined in Section E. of this ordinance.

(3). "SFHA" or "Special Flood Hazard Area" means: those lands within the jurisdiction of the City that are subject to inundation by the base flood. The SFHAs of the City are generally identified as such on the Flood Insurance Rate Map of the City prepared by the Federal Emergency Management Agency and dated effective October 2, 1981. The SFHAs of those parts of unincorporated McLean County that are within the extraterritorial jurisdiction of the City or that may be annexed into the City are generally identified as such on the Flood Insurance Rate Map prepared for McLean County by the Federal Emergency Management Agency and dated December 18, 1985 (also known as "A Zones").

(4). "Riverine SFHA" means: any SFHA subject to flooding from a river, creek, intermittent stream, ditch, or any other identified channel. This term does not include areas subject to flooding from lakes (except public bodies of water), ponding areas, areas of sheet flow, or other areas not subject to overbank flooding.

(5). "Floodway" means: that portion of the SFHA required to store and convey the base flood. The floodway for each of the SFHAs of the City shall be according to the best data available to the Illinois State Water Survey Floodplain Information Repository.

(6). "FPE" or "Flood Protection Elevation" means: the elevation of the base flood plus one foot at any given location in the SFHA.

(7). "Development" means: any man-made change to real estate, including:

(a). construction, reconstruction, or placement of a building or any addition to a building valued at more than \$1,000;

(b). installing a manufactured home on a site, preparing a site for a manufactured home, or installing a travel trailer on a site for more than 180 days;

(c). installing utilities, construction of roads, or similar projects;

(d). construction or erection of levees, walls, fences, bridges or culverts;

(e). drilling, mining, filling, dredging, grading, excavating, or other nonagricultural alterations of the ground surface;

(f). storage of materials; or

(g). any other activity that might change the direction, height, or velocity of flood or surface waters.

"Development" does not include maintenance of existing buildings and facilities such as re-roofing; re-surfacing roads; or gardening, plowing, and similar agricultural practices that do not involve filling, grading, or construction of levees.

(8). "Building" means: a structure that is principally above ground and is enclosed by walls and a roof. The term includes a gas or liquid storage tank, a manufactured home, or a prefabricated building. The term also includes recreational vehicles and travel trailers to be installed on a site for more than 180 days.

C. Office of Building Official. There is hereby created the office of Building Official of the City of LeRoy, an administrative office of the City. The office shall be filled by appointment of a person educated, trained or experienced in construction practices or by contract with another governmental inspection agency. The appointment or contract shall be made by the Mayor of the City subject to the approval of the City Council. To the

extent an individual is appointed to said office (rather than such duties being carried out under contract with another governmental inspection agency), said official shall be the same official as fills the office of administrative officer in accordance with the Zoning Code of the City of LeRoy in force from time to time. Said office and the person or agency exercising the duties of "Building Official" shall hereinafter be referred to as the "Administrative Officer."

D. Duties of the Administrative Officer (Building Official). The Administrative Officer shall be responsible for the general administration and enforcement of this ordinance, including but not limited to the following duties:

- (1). Ensure that all development activities within the SFHAs of the jurisdiction of the Village meet the requirements of this ordinance;
- (2). Provide information and assistance to citizens upon request about permit procedures and floodplain construction techniques;
- (3). Ensure that construction authorization has been granted by the Illinois Department of Transportation, Division of Water Resources, for all development projects subject to Section N of this ordinance, and maintain a record of such authorization;
- (4). Maintain a record of the "as built" elevation of the lowest floor (including basement) of all buildings subject to Section Q of this ordinance;
- (5). Maintain a record of the engineer's certificate and the "as built" floodproofed elevation of all buildings subject to Section Q.(4) of this ordinance;
- (6). Inspect all development projects to ensure they comply with the provisions of this ordinance;
- (7). Cooperate with state and federal floodplain management agencies to improve base flood and floodway data and to improve the administration of this ordinance and submit reports as required for the National Flood Insurance Program.
- (8). Maintain for public inspection and furnish upon request base flood data, SFHA maps, copies of federal or state permit documents and "as

built" elevation and floodproofing data for all buildings constructed subject to this ordinance.

E. Base Flood Elevation. This ordinance's protection standard is the base flood. The best available base flood data are listed below. Whenever a party disagrees with the best available data, the party may finance the detailed engineering study needed to replace existing data with better data and submit it to the State Water Survey and Federal Emergency Management Agency.

(1). The base flood elevation for each of the SFHAs delineated as an unnumbered "A Zone" on the Flood Insurance Rate Map of the City shall be according to the best data available to the Illinois State Water Survey Floodplain Information Repository. When no base flood elevation exists, the base flood elevation shall be the 100 year flood depth calculated according to the formulas presented in Depth & Frequency of Floods in Illinois published by the U.S. Geological Survey, 1976.

(2). The base flood elevation for the SFHAs of those parts of unincorporated McLean County that are within the extraterritorial jurisdiction of the City or that may be annexed into the City shall be according to the best data available to the Illinois State Water Survey Floodplain Information Repository.

F. Development Permit. No person, firm, corporation, or governmental body not exempted by state law shall commence any development in the SFHA without first obtaining a development permit from the Administrative Officer. The Administrative Officer shall not issue a development permit if the proposed development does not meet the requirements of this ordinance.

(1). The application for a development permit shall be accompanied by drawings of the site, drawn to scale, showing property line dimensions; existing grade elevations and all changes in grade resulting from excavation or filling; the location and dimensions of all buildings and additions to buildings; and the elevation of the lowest floor (including basement) of all proposed buildings subject to the requirements of Section Q of this ordinance.

(2). Upon receipt of an application for a development permit, the Administrative Officer shall compare the elevation of the site to the base flood elevation. Any development located on land that can be shown to have been higher than the base flood elevation as of the date of the site's first Flood Insurance Rate Map (FIRM) identification, is not located in the SFHA

and therefore not subject to the requirements of this ordinance. The Administrative Officer shall maintain documentation of the existing ground elevation at the development site and certification that this ground elevation existed prior to the date of the site's first FIRM identification.

(3). The Administrative Officer shall inform the applicant of any and all other local, state, and federal permits that may be required for this type of development activity. The Administrative Officer shall not issue the development permit unless all required federal and state permits have been obtained.

G. Use Permits. It shall be unlawful to use or occupy any buildings or any development site or any part thereof hereafter constructed in the SFHA without first making application for obtaining a use permit from the Administrative Officer. Request for a use permit shall be submitted to the Administrative Officer upon completion of the work authorized in the development permit issued for the project in question. If, upon final inspection of a building or development site, the Administrative Officer finds that the work has been performed in accordance with the approved application and plans of the development permit, a use permit may be issued. If final inspection reveals otherwise, a use permit may not be issued until all deficiencies are corrected.

H. Permit Review. The Administrative Officer shall examine each application for a permit within three days' time after filing. If, after examination, it appears that the proposed development or use of the site will be in compliance with this ordinance, and such other ordinances and resolutions passed by the City Council applicable thereto, the Administrative Officer shall approve such application and issue the appropriate permit as soon as practicable. If the examination reveals otherwise, the application shall be rejected and the Administrative Officer's findings shall be noted in a written report to be attached to the application. A copy of the report shall be provided to the applicant upon request.

I. Development Permit Requirements.

(1). All work performed under a development permit shall conform to the approved application and plans, and approved amendments thereto.

(2). A copy of the development permit shall be posted in a conspicuous place on the premises, in plain view from a public road, during the execution of the work and until completion of the same.

(3). A development permit under which no work is commenced within six (6) months after issuance shall expire by limitation and a new development permit shall be secured before work is started.

J. Consent for Inspections. All work for which a permit is required shall be subject to inspection by the Administrative Officer or his duly authorized representative. It shall be unlawful to refuse to permit the Administrative Officer or his representative to enter such premises or structure at any reasonable time to make an inspection. It shall be unlawful to interfere with or hinder the Administrative Officer or his representative when in the performance of their duties.

K. Revocation of a Permit. The Administrative Officer may revoke a permit in case there has been any false statement or misrepresentation as to a material fact in the application or plans on which the permit was based. The Administrative Officer may revoke a permit when work is performed contrary to the provisions of the application or plans on which the permit is based. When a permit is revoked, the Administrative Officer shall inform the permittee in writing of the specific steps the permittee must take in order to have the permit reissued. It shall be unlawful to continue any work authorized by a permit after revocation of that permit and until the permit is reissued or until a new permit is issued.

L. Completion of Work Heretofore Authorized. Nothing in this ordinance shall require changes in the plans, construction or designated use of a building or other development project or portion thereof which has been otherwise lawfully authorized, or the construction of which shall have been actually begun, and which entire building or development project shall be completed within one year of the effective date of this ordinance.

M. Fees. Fees for permits shall be as follows:

- (1). For a use permit: No fee;
- (2). For a development permit for clearing debris, demolishing buildings, or removing buildings out of the SFHA: No fee;
- (3). For construction of a building valued at more than \$100,000: \$100.00;
- (4). For construction or reconstruction of a building valued at less than \$100,000 and for any development project that requires three site inspections by the Administrative Officer: \$75.00;

(5). For improvements made to an existing building, for installing a manufactured home on a permanent site, and for any other development project: \$50.00;

N. Preventing Increased Damages. No development in the SFHA shall create a damaging or potentially damaging increase in flood heights or velocity or threat to public health and safety.

(1). Within all riverine SFHAs the following standards shall apply:

(a). In addition to the other requirements of this ordinance, a development permit for a site located in a floodway (or in a riverine SFHA where no floodway has been identified) shall not be issued unless the applicant first obtains a permit or written documentation that a permit is not required from the Illinois Department of Transportation, Division of Water Resources, issued pursuant to Illinois Revised Statutes, Chapter 19, Sections 52 et. seq.

(b). The following activities may be constructed without the individual permit required in subsection N.(1)(a), in accordance with Statewide Permits issued by the Illinois Department of Transportation, Division of Water Resources, provided the activities do not involve placement of fill, change of grade, or construction in the normal channel. Such activities must still meet the other requirements of this ordinance, and the previously designated activities are as follows:

(i). The construction of wells, septic tanks, and underground utility lines not crossing a lake or stream;

(ii). The construction of light poles, sign posts and similar structures;

(iii). The construction of sidewalks, driveways, athletic fields (excluding fences), patios and similar surfaces which are built at grade;

(iv). The construction of properly anchored, unwallled, open structures such as playground equipment, pavilions, and carports;

(v). The placement of properly anchored buildings not exceeding seventy (70) square feet in size, nor ten (10) feet in any dimension (e.g. animal shelters and tool sheds); and

(vi). The construction of additions to existing buildings which do not increase the first floor area by more than twenty (20) percent, which are located on the upstream or downstream side of the existing building, and which do not extend beyond the sides of the existing building that are parallel to the flow of flood waters.

(c). The total cumulative effect of the proposed development when combined with all other existing and anticipated development, will not increase the base flood elevation more than 1.0 foot for the affected hydraulic reach of the stream and will not increase flood damage or potential flood damage.

(4). Public health standards in all SFHA's.

(a). No development in the SFHA shall include locating or storing chemicals, explosives, bouyant materials, flammable liquids, pollutants, or other hazardous or toxic materials below the FPE unless such materials are stored in a storage tank or floodproofed building constructed according to the requirements of subsection O.(4) of this ordinance.

(b). New and replacement sanitary sewer lines and on-site waste disposal systems may be permitted providing all manholes or other above-ground openings located below the FPE are watertight.

O. Protecting Buildings. In addition to the damage prevention requirements of Section N, all buildings to be located in the SFHA shall be protected from flood damage below the FPE. This building protection requirement applies to the following situations:

(i). Construction or placement of a new building valued at more than \$1,000;

(ii). Structural alterations made to an existing building that increase the floor area by more than 20%, or the market value of the building by more than 50%;

(iii). Reconstruction or repairs made to a damaged building that are valued at more than 50% of the market value of the building before the damage occurred;

(iv). Installing a manufactured home on a new site or a new manufactured home on an existing site (this ordinance does not apply to

returning a manufactured home to the same site it lawfully occupied before it was removed to avoid flood damage); and

- (v). Installing a travel trailer on a site for more than 180 days.

This building protection requirement may be met by one of the following methods. The Administrative Officer shall maintain a record of compliance with these building protection standards as required in Section D. of this ordinance.

(1). A residential or nonresidential building may be constructed on permanent land fill in accordance with the following:

- (a). The fill shall be placed in layers no greater than 1 foot deep before compaction;

- (b). The lowest floor (including basement) shall be at or above the FPE, and the fill should extend at least ten feet beyond the foundation of the building before sloping below the FPE;

- (c). The fill shall be protected against erosion and scour during flooding by vegetative cover, rip rap, or bulkheading; if vegetative cover is used, the slopes shall be no steeper than 3 horizontal to 1 vertical;

- (d). The fill shall not adversely affect the flow of surface drainage from or onto neighboring properties.

(2). A residential or nonresidential building may be elevated in accordance with the following:

- (a). The building or improvements shall be elevated on stilts, piles, walls, crawl space, or other foundation provided:

- (i). The walls have permanent openings no more than 1 foot above grade; and

- (ii). The walls and floor are not subject to damage by hydrostatic pressures associated with the base flood.

- (b). The foundation and supporting members shall be anchored and aligned in relation to flood flows and adjacent structures so as to minimize exposure to known hydrodynamic forces such as current, waves, ice, and floating debris.

(c). All areas below the FPE shall be constructed of materials resistant to flood damage. The lowest floor (including basement) and all electrical, heating, ventilating, plumbing, and air conditioning equipment and utility meters shall be located at or above the FPE. Water and sewer pipes, electrical and telephone lines, submersible pumps, and other waterproofed service facilities may be located below the FPE.

(3). Manufactured homes and travel trailers to be installed on a site for more than 180 days shall be:

(a). Elevated at or above the FPE in accordance with Section Q.(1) or (2); and

(b). Anchored to resist flotation, collapse, or lateral movement by being tied-down in accordance with the Rules and Regulations for the Illinois Mobile Home Tie-Down Act issued pursuant to Illinois Revised Statutes 1985 (as amended), Chapter 111-1/2, Paragraphs 4401-4406.

(4). Only a non-residential building may be floodproofed in accordance with the following:

(a). A Registered Professional Engineer shall certify that the building has been designed so that below the FPE the structure and attendant utility facilities are watertight and capable of resisting the affects of the base flood. The building design shall take into account flood velocities, duration, rate of rise, hydrostatic and hydrodynamic forces, the effects of buoyancy, and impacts from debris or ice; and

(b). Floodproofing measures shall be operable without human intervention and without an outside source of electricity.

P. Other Development Requirements. The City shall take into account flood hazards, to the extent that they are known, in all official actions related to land management, use and development.

(1). New subdivisions, manufactured home parks, travel trailer (PUD's), and additions to manufactured home parks and subdivisions shall meet the requirements of Sections N and Q of this ordinance. Plats or plans for new subdivisions, manufactured home parks, and planned unit developments (PUD's) shall include a signed statement by a Registered Professional Engineer that the plat or plan accounts for changes in the

drainage of surface waters in accordance with the Plat Act (Illinois Revised Statutes 1985 (as amended), Chapter 109, Paragraph 2).

(2). Proposals for new subdivisions, manufactured home parks, travel trailer parks, planned unit developments (PUD's), and additions to manufactured home parks and subdivisions shall include base flood elevation data and floodway delineations. Where this information is not available from an existing study filed with the Illinois State Water Survey, the applicant shall be responsible for calculating the base flood elevation and the floodway delineation and submitting it to the State Water Survey for review and approval as best available regulatory data.

Q. Variances. Whenever the standards of this ordinance place undue hardship on a specific development proposal, the applicant may apply to the Administrative Officer for a variance. The Administrative Officer shall review the applicant's request for a variance and shall submit his recommendation to the Zoning Board of Appeals which may then attach such conditions to granting of a variance as it deems necessary to further the intent of this ordinance, and shall then make its recommendation known to the City Council for final action in accordance with the zoning ordinances of the City .

(1). No variance shall be granted unless the applicant demonstrates that:

(a). the development activity cannot be located outside the SFHA;

(b). an exceptional hardship would result if the variance were not granted;

(c). the relief requested is the minimum necessary;

(d). there will be no additional threat to public health or safety or creation of a nuisance;

(e). there will be no additional public expense for flood protection, rescue or relief operations, policing, or repairs to roads, utilities, or other public facilities; and

(f). the provisions of subsection F.(3) of this ordinance are met; and

(g). the provisions of subsection N.(1), of this ordinance are met.

(2). The Administrative Officer shall notify an applicant in writing that a variance from the requirements of Section Q. that would lessen the degree of protection to a building will:

(a). result in increased premium rates for flood insurance up to amounts that may be as high as \$25 for \$100 of insurance coverage;

(b). increase the risks to life and property; and

(c). require that the applicant proceed with knowledge of these risks and that the applicant acknowledge in writing the assumption of the risk and liability.

(3). Variances to the building protection requirements of Section Q. of this ordinance requested in connection with the reconstruction, repair or alteration of a site or building included on the National Register of Historic Places or the Illinois Register of Historic Places may be granted using criteria more permissive than the requirements of Subsection Q(1)(a)-(e).

R. Disclaimer of Liability. The degree of flood protection required by this ordinance is considered reasonable for regulatory purposes and is based on available information derived from engineering and scientific methods of study. Larger floods may occur or flood heights may be increased by man-made or natural causes. This ordinance does not imply that development either inside or outside of the SFHA will be free from flooding or damage. This ordinance does not create liability on the part of the City or any officer or employee thereof for any flood damage that results from reliance on this ordinance or any administrative decision made lawfully thereunder.

S. Penalty. Failure to obtain a permit for development in the SFHA or failure to comply with the requirements of a permit or conditions of a variance resolution shall be deemed to be a violation of this ordinance. Upon due investigation the City Attorney may determine that a violation of the minimum standards of this ordinance exists. The City Attorney shall notify the owner in writing of such violation.

(1). If such owner fails after ten days' notice to correct the violation:

(a). The City may make application to the Circuit Court for an injunction requiring conformance with this ordinance or such other order as the court deems necessary to secure compliance with the ordinance;

(b). Any person who violates this ordinance shall upon conviction thereof be fined not less than twenty-five dollars (\$25.00) nor more than two hundred dollars (\$200.00);

(c). A separate offense shall be deemed committed upon each day during or on which a violation occurs or continues.

(2). The City Attorney shall inform the owner that any such violation is considered a willful act to increase flood damages and therefore may cause coverage by a Standard Flood Insurance Policy to be suspended.

(3). Nothing herein shall prevent the City from taking other lawful action to prevent or remedy any violations. All costs connected therewith shall accrue to the person or persons responsible.

S. Abrogation and Greater Restrictions. This ordinance repeals and replaces other ordinances adopted by the City Council to fulfill the requirements of the National Flood Insurance Program including Ordinance No. 294, adopted March 2, 1987. However, this Ordinance does not repeal the original resolution or ordinance adopted to achieve eligibility in the Program. Nor does this ordinance repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. Where this Ordinance and other ordinances, easements, covenants, or deed restrictions conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

T. Separability. The provisions and sections of this ordinance shall be deemed separable and the invalidity of any portion of this ordinance shall not affect the validity of the remainder.

U. Effective Date. This ordinance shall be in full force and effect from and after its passage and approval and publication in pamphlet form as required by law.

PASSED BY the Mayor and City Council of the City of LeRoy, Illinois, on the 4th day of April, 1988.

ATTEST:

(seal)

Juanita Dagley  
Juanita Dagley, City Clerk of the  
City of LeRoy, Illinois

CERTIFICATE

I, Juanita Dagley, certify that I am  
the duly elected and acting municipal clerk of the City  
of LeRoy, McLean County, Illinois.

I further certify that on April 4, 1988,  
the Corporate Authorities of such municipality passed and  
approved Ordinance No. 316, entitled:

AN ORDINANCE REGULATING DEVELOPMENT IN SPECIAL FLOOD HAZARD AREAS, AND  
BEING AN ORDINANCE AMENDING CHAPTER 21 OF THE MUNICIPAL CODE OF LEROY,  
ILLINOIS, 1975 (AS AMENDED) BY ADDITION OF NEW SECTION 21.08 F,

which provided by its terms that it should be published in  
pamphlet form.

The pamphlet form of Ordinance No. 316, including  
the Ordinance and a cover sheet thereof was prepared, and a  
copy of such Ordinance was posted at the municipal building,  
commencing on April 4, 1988, and continuing for  
at least ten days thereafter. Copies of such Ordinance were  
also available for public inspection upon request in the office  
of the municipal clerk.

Dated at Le Roy, Illinois, this 4th day  
of April, 1988.

(seal)

Juanita Dagley  
Municipal Clerk

STATE OF ILLINOIS)  
  )SS  
COUNTY OF MC LEAN)

I,                   Juanita Dagley                  , do hereby certify  
that I am the duly qualified and acting City Clerk of  
the City of LeRoy, McLean County, Illinois, and as such  
City Clerk that I am the keeper of the records and files  
of the Mayor and the City Council of said City.

I do further certify that the foregoing is a true,  
correct and complete copy of an ordinance entitled:

AN ORDINANCE REGULATING DEVELOPMENT IN SPECIAL FLOOD HAZARD AREAS, AND  
BEING AN ORDINANCE AMENDING CHAPTER 21 OF THE MUNICIPAL CODE OF LE ROY,  
ILLINOIS, 1975 (AS AMENDED) BY ADDITION OF NEW SECTION 21.08F.

That said ordinance was adopted by the Mayor and  
City Council of the City of LeRoy at a regular meeting  
on the   4th   day of   April  , 1988,  
and that a faithful record of said ordinance has been  
made in the record books.

Dated this   4th   day of   April  , 1988.

                  Juanita Dagley                    
  City Clerk
