

CITY OF LE ROY OUTSIDE (NON-SEWER) WATER USAGE

Occasionally, the City of Le Roy has water and sewer customers that use additional water that is not discharged into the sanitary sewer system.

The special sewer use program will allow customers to be billed sewer fees only for the water that is discharged into the sewer system. This process is done by averaging inside water use from October through March each year. Your account will then have a cap for sewer billing. If your water exceeds the cap, you will not be billed sewer fees for the additional water usage that was not discharged into the sewer.

The program is for sewer fees only, for the cycle readings of April 10 through October 10 which would be the June bills through November bills. You will continue to be billed for all water used.

The activation fee to sign up for this service is \$100.00 for the 2022 billing year.

CITY OF LE ROY

SPECIAL SEWER APPLICATION

By completing this form, you are signing up for the special sewer use program. This form authorizes the City to calculate your average water usage for the billing months of October through March. The average usage for this period will be converted to a monthly cap. When your monthly sewer bill is calculated, you will only be required to pay sewer fees up to the cap. You will continue to be billed for all water used.

I authorize the City of Le Roy to set up my account for the special sewer use program for the months of June through November 2022.

I agree to pay with this application a \$100.00 activation and set up fee.
